| 4.02 | CoPE  | **Progressive Compliance Implementation**  
  - Lorelle described the position of CoPE for delaying the roll out of the progressive compliance model. There is concern about the notice to members being delayed and that timeline is short for CoPE to be fully prepared for increased workload.  
  - Discussion points raised: members know there is an enforcement model under development however, they are not aware of the details; members should have been complying with the model to date and it is a two year model so members will have an opportunity to correct their non-compliance; another year may not alleviate concerns that CoPE has; appeal process is a concern due to many members failing audits so there would be a short notice for work load; model implementation would increase numbers for CoPE on the second year due to being on the mandatory audit list in addition to the minimum 5% audited; discussion on how a version of soft roll out would occur.  
  - There was consensus that an e-motion be sent out after the meeting to vote on whether to delay roll out until 2020. | Circulate motion regarding the roll out date of progressive enforcement model | Ann  |
